

To whom it may concern

The board of directors of Uniqsis Ltd ("Uniqsis") are delighted to announce that the business of the company is to be acquired by Asynt Ltd ("Asynt"), with all Uniqsis staff transferring to the new combined business, based in Isleham, Cambridgeshire. The business is to transfer on 31st August 2024.

Asynt have been a long-term partner of Uniqsis and services many mutual and similar customers. **This change is being implemented to better support you with additional resources including enhanced customer service and research & development capabilities.**

Uniqsis' well-established range of specialist Flow Chemistry products and accessories (including its Flowsyn, FlowLab and FlowLab Plus ranges) will continue to be sold and supported by Asynt, accessing more overseas markets and customers through Asynt's established distribution network and overseas subsidiaries, as well as through the existing specialist Uniqsis distributors.

Please rest assured that all current warranties will be directly transferred and fully supported.

The combination of Asynt's expertise in [multiple chemistry methodologies](#) and Uniqsis' specialist expertise in flow chemistry enables us to offer a broad spectrum of products to laboratories in a single portfolio. The current Uniqsis staff will continue to offer specialist support for the flow chemistry products within Asynt, and in September we are extending our Flow Chemistry support team with an additional experienced flow chemistry scientist to help with all current Uniqsis customers' requirements.

For the remainder of 2024, the Uniqsis staff will continue to work from the existing premises in Comberton before transferring to new purpose-build facilities in Isleham CB7 UK in 2025.

How will this affect you?

- Any existing orders on Uniqsis which have not been fulfilled by Uniqsis by 31st August 2024 will be transferred to Asynt, shipped and invoiced by Asynt. These will need to be paid to Asynt. (Full details available upon request).
- New orders for products after 31st August 2024 will need to be sent to Asynt please. (Full details available upon request).
- Any invoices raised by Uniqsis for shipments made before the end of August 2024 will still need to be paid to Uniqsis, as is currently the case.
